HICKORY & EUROPEAN OAK — FACTORY DIRECT

OUR FLOORING COLLECTION

Real Wood. Real Craft. Real Value.

The floor is the largest surface in any room. It sets the tone for everything else — the cabinetry, the paint, the furniture. We believe it deserves more than a commodity product.

Our engineered hardwood is produced in Thailand from select veneers over high-density multi-ply cores. Factory-applied UV-cured finishes in 8 stains per species ensure durability and consistency across every plank.

Two species — **Hickory** and **European Oak** — each available in three grades and eight stain options. Wide planks, click-lock installation, and a 7-coat polyurethane finish that's ready to walk on straight out of the box.

No middlemen. No markups. Direct from our factory partner to your job site.

FACTORY DIRECT

Built for Texas Custom Homes

SPECIES ONE

European Oak

*Wide-Plank European Oak.
Timeless Elegance.*

Our European oak engineered hardwood delivers the warmth and character of solid wood with the dimensional stability of modern multi-ply construction. Wide planks showcase the natural beauty of oak grain, available in finishes from pale natural to deep espresso.

Produced in Thailand from sustainably sourced European oak veneers over a high-density eucalyptus core. UV-cured finishes provide superior scratch and wear resistance straight out of the box — no on-site finishing required.

8 Stain Options — Natural to Espresso

elegance

8 STAIN OPTIONS — NATURAL TO ESPRESSO

EUROPEAN OAK — SPECIFICATIONS

Wide-Plank European Oak

Sustainably sourced European oak veneers over a high-density eucalyptus core. Pre-finished with a 7-coat UV-cured polyurethane system for superior scratch and wear resistance.

KEY FEATURES

SPECIES	European Oak
CONSTRUCTION	Engineered — Multi-Ply Core
CORE	High-Density Eucalyptus
WIDTH	7" – 8.5" Wide Plank
LENGTH	60" – 75" (Random Lengths)
FINISH	7-Coat UV-Cured Polyurethane
INSTALL	Tongue-and-Groove Click-Lock
STAIN OPTIONS	8 — Natural to Espresso

AVAILABLE GRADES	
SELECT	12mm Total / 2mm Veneer
PREMIUM	14mm Total / 3mm Veneer
LUXURY	15mm Total / 3mm Veneer

A photograph of a modern living room with large windows and a wooden floor. The room is bright and airy, with a large sofa and a coffee table. The floor is made of wide-plank wood with a natural finish. The word "character" is written in a large, white, serif font in the top left corner, with a small horizontal line underneath it.

character

SPECIES TWO

Hickory

Hickory Hardwood.

Bold Character.

Hickory is the hardest domestic species available, with dramatic grain variation and natural color contrast that brings warmth and personality to any room. Our engineered hickory planks deliver that bold, rustic character with the performance advantages of multi-ply construction.

Produced in Thailand from select hickory veneers over a high-density multi-ply core. Factory-applied UV-cured finishes in 8 tones — from golden blonde to rich charcoal — ensure durability and consistency across every plank.

8 Stain Options — Golden to Charcoal

Wide-Plank Hickory

Select hickory veneers over a high-density multi-ply core. The hardest domestic species available — dramatic grain with natural knots that give every plank its own story. Pre-finished with a 7-coat UV-cured polyurethane system.

KEY FEATURES

SPECIES	Hickory
CONSTRUCTION	Engineered — Multi-Ply Core
CORE	High-Density Multi-Ply
WIDTH	7" – 8.5" Wide Plank
LENGTH	60" – 75" (Random Lengths)
FINISH	7-Coat UV-Cured Polyurethane
INSTALL	Tongue-and-Groove Click-Lock
STAIN OPTIONS	8 — Golden to Charcoal

AVAILABLE GRADES

SELECT	12mm Total / 2mm Veneer
PREMIUM	14mm Total / 3mm Veneer
LUXURY	15mm Total / 3mm Veneer

CHOOSE YOUR GRADE

Three Grades. One Standard of Quality.

Every grade uses the same UV-cured 7-coat finish and click-lock installation system. The difference is thickness — which determines refinishing potential and underfoot feel.

Select is our entry point — ideal for rental properties and high-turnover spaces where budget matters most.

Premium is the sweet spot — thick enough to sand and refinish once, with a substantial feel underfoot. Our most popular grade for custom homes.

Luxury is the top of the line — maximum veneer thickness for multiple refinishes over decades. The choice for forever homes.

All grades available in both Hickory and European Oak, in all 8 stain options per species.

AVAILABLE GRADES & DIMENSIONS

Both species available in all three grades

Select

Entry-level grade — ideal for rental properties and high-turnover spaces.

THICKNESS	12mm	veneer	2mm
WIDTH	7" – 8.5"	LENGTH	60" – 75"

Premium ★ MOST POPULAR

The sweet spot — thick enough to sand and refinish, with a substantial feel underfoot.

THICKNESS	14mm	veneer	3mm
WIDTH	7" – 8.5"	LENGTH	60" – 75"

Luxury

Top of the line — maximum veneer for multiple refinishes over decades.

THICKNESS	15mm	veneer	3mm

The floor is the largest surface in any room. Get it right, and everything else falls into place.

THE ARI-MATERIALS PHILOSOPHY

Real wood. Real grain. Engineered for real life in Texas. Our hardwood floors are built to handle the heat, the humidity, and the heavy foot traffic of a family home — while looking like they belong in a design magazine.

Every order produced to your exact specifications — species, grade, stain, and quantity.

WHY ARI-MATERIALS

Factory-Direct Advantage

- Direct Factory Partnership** — We work directly with our manufacturing partner through a joint venture. No middlemen, no markups, no surprises.
- Batch Consistency** — Multiple homes in the same development? We pull from the same production run for color-matched flooring across every unit.
- Produced to Order** — Every order is manufactured to your specifications. No leftover inventory, no closeout mismatches — just exactly what you need.
- Builder Pricing** — Volume discounts for multi-home developments. One point of contact from quote to delivery.

HOW IT WORKS

STEP 1	Select Species, Grade & Stain
STEP 2	Submit Square Footage
STEP 3	Receive Quote & Timeline
STEP 4	Pay Deposit — Production Begins
STEP 5	Pick Up at Our Texas Warehouse

SPECIFICATIONS SUMMARY

Both Species at a Glance

CONSTRUCTION	Engineered Multi-Ply
VENEER	2mm – 3mm (by grade)
WIDTH	7" – 8.5"
LENGTH	60" – 75"
FINISH	7-Coat UV-Cured Polyurethane
INSTALLATION	Click-Lock (T&G)
SUSTAINABILITY	Renewable Wood Sources
STAIN OPTIONS	8 per Species

All orders produced to your specifications. 8 – 10 weeks from deposit to warehouse pickup.
