Engineered *Hardwood*

European oak and hickory, made to order.

OUR FLOORING

The biggest surface *in the house.*

The floor sets the tone for the cabinets, the paint and the furniture. It deserves better than a commodity product off a distributor's shelf.

Our engineered hardwood is real wood veneer over a dense multi-ply core, finished at the factory with seven coats of UV-cured polyurethane. Two species, three grades and eight stains each, in wide planks that click together and are ready to walk on.

MADE TO ORDER

Produced to your species, grade, stain and square footage.

BATCH MATCHED

Several homes in one development? We pull from one production run so the color matches.

FINISHED AT THE FACTORY

No sanding or finishing on site.

BUILDER PRICING

Volume pricing for multi-home projects.

ENGINEERED HARDWOOD IN A FINISHED HOME

SPECIES ONE

European *Oak*

The warmth and grain of solid oak with the stability of a multi-ply core. Wide planks show off the grain, and the factory finish stands up to scratches and wear from the first day.

SPECIES	European oak
CONSTRUCTION	Engineered, multi-ply core
CORE	High-density eucalyptus
WIDTH	7 to 8.5 in wide plank
LENGTH	60 to 75 in, random
FINISH	7-coat UV-cured polyurethane
INSTALL	Tongue-and-groove click-lock
STAINS	Eight, natural to espresso

EIGHT STAINS, NATURAL TO ESPRESSO

SPECIES TWO

Hickory

The hardest domestic species, with dramatic grain and natural color variation from plank to plank. Bold and rustic, with the dimensional stability of engineered construction.

SPECIES	Hickory
CONSTRUCTION	Engineered, multi-ply core
CORE	High-density multi-ply
WIDTH	7 to 8.5 in wide plank
LENGTH	60 to 75 in, random
FINISH	7-coat UV-cured polyurethane
INSTALL	Tongue-and-groove click-lock
STAINS	Eight, golden to charcoal

EIGHT STAINS, GOLDEN TO CHARCOAL

CHOOSE YOUR GRADE

Three grades. *One finish standard.*

Every grade gets the same seven-coat finish and click-lock install. What changes is thickness: how it feels underfoot and how many times it can be refinished.

Select		Premium		Luxury	
Our entry grade, for rentals and high-traffic spaces where budget comes first.		Thick enough to sand and refinish once. Our most popular grade for custom homes.		The thickest veneer, for several refinishes over the life of the house.	
TOTAL	12 mm	TOTAL	14 mm	TOTAL	15 mm
VENEER	2 mm	VENEER	3 mm	VENEER	3 mm
WIDTH	7 – 8.5 in	WIDTH	7 – 8.5 in	WIDTH	7 – 8.5 in
LENGTH	60 – 75 in	LENGTH	60 – 75 in	LENGTH	60 – 75 in

All three grades come in both species and all eight stains.

INSTALLED

In finished *homes.*

Living rooms, kitchens and halls with ARI engineered hardwood.

HOW IT WORKS

From sample *to pickup.*

- 01

Pick species, grade and stain
Choose from two species, three grades and eight stains each.
- 02

Send the square footage
By room or for the whole house, plus any other homes in the same development.
- 03

Get your quote and timeline
A firm price and a production date.
- 04

Pay the deposit
Production starts on your exact order.
- 05

Pick up at our warehouse
Typically 8 to 10 weeks from deposit.

AT A GLANCE

CONSTRUCTION	Engineered multi-ply
VENEER	2 to 3 mm by grade
WIDTH / LENGTH	7 – 8.5 in / 60 – 75 in
FINISH	7-coat UV-cured polyurethane
INSTALL	Click-lock, tongue and groove
MINIMUM ORDER	3,500 sq ft (5,000 sq ft custom)
LEAD TIME	8 to 10 weeks, made to order
