

FULL-VIEW DOUBLE GARAGE

Maximum Impact. Double Bay.

Makes a commanding statement across a wide two-car opening. Available with single-pane tempered glass for a sleek, contemporary aesthetic or upgradeable to 22mm Low-E argon IGU glass for homes that demand energy efficiency — ideal for conditioned garages and workshop conversions.

Powder-coated aluminum frames in AAMA 2604 finish stand up to Texas sun and weather. Heavy-duty torsion springs, stainless steel tracks, and quiet nylon rollers handle the larger panel weight with smooth, dependable operation.

SAVE 30–50% vs. comparable US & European manufactured products — same quality, direct from factory

KEY FEATURES

- Two glass options: single tempered or 22mm IGU
- Powder-coated aluminum frame, AAMA 2604 rated
- Heavy-duty torsion spring for double-width panels
- Stainless steel tracks and nylon rollers
- Custom sizes; standard double-bay widths
- Compatible with all standard opener systems
